[To the Editor of the Interior Journal.] Mr. VERNON, Aug. 23:-Your corres pondent from this place in an article published in last Tuesday's issue of your paper says that the contest in this county is about equally divided between Gov. THE St. Louis Republican makes a good point when it says that there is one important fact which the traducers of Gov. Cleveland are careful to keep out of sight in their personal defamation of him and which even the general public may be inclined to forget. It is not yet two years since he was chosen Governor of New York by the largest majority ever given for a candidate for Governor in this country, and that, too, over a republican opponent of recognized ability and unstained private character. That opponent was Judge Folger, now, as then, Secretary of the Treasu-Ty at Washington. It will be said that Cleveland's phenomenal majority of 192,-000 in November 1882, can not be claimed N.
